| Inlay sole         | PU – 85% GRS recycled | 36gr           | 5%        | Anti-penetration | Polyester                       | 73gr   10% |
| Lining             | Polyester             | 21gr           | 3%        | Anti-odor        | Peppermint oil – 100% bio-based | 1gr   1%   |
| Upper part         | Leather               | 123gr          | 17%       |                  |                                 |            |
| Midsole            | PU                    | 133gr          | 18%       |                  |                                 |            |
| Outsole            | TPU – 20% recycled    | 166gr          | 23%       |                  |                                 |            |

### Sustainability Highlights

9% recycled materials

1% bio based materials

Consists of 10% environmentally friendly materials in terms of weight

### Sustainability Explanation

#### rPET Laces

The laces are for 100% made of recycled PET material. Sourced, processed and supplied by local Dutch partners. GRS certified.

#### Odor control

The anti-bacterial treatment applied on the full lining is based on the natural mint-extract. It is 99,9% efficient and 100% bio-based.

#### TPU Outsole

The TPU outsole exists of 20% recycled TPU. Regained and reused TPU, supplied by an European partner.

#### Inlay sole

The Poliyou® inlay sole contains 85% GRS recycled PU foam. The opencell structure regulates a perfect climate control.

#### ISO 14021:2016

The material passport includes criteria for self-declared environmental claims, such as statements, symbols, and images, in line with EN ISO 14021:2016.

#### Recycled content

Standard that sets requirements for certification of recycled input, chain of custody, social and environmental practices, and chemical restrictions.

#### GRS

Standard that verifies the presence and amount of recycled material in fabrics and tracks the flow of raw materials from source to finished product.
